

March 8, 1974

restrictive requirement if there are only two people who meet both those requirements. Don't you think that there is somebody who could run a parking lot who has had four years of experience running a parking lot but might not have \$300,000.

SENATOR SNYDER: At the same time we have had some bad experiences in the past with contracts going to "the lowest and best" a that has had no experience in these type of things and that was the way the bill came and that was the explanation that we accepted, at that point of having a performance on record.

PRESIDENT: Stand by, Senator Dickinson.

SENATOR DICKINSON: It just seems to me that this thing has turned out to be controversial and we are not getting anyplace.

PRESIDENT: That was about the conclusion that I was about to draw. Stand by here. Senator Mahoney.

SENATOR MAHONEY: I would move that we set it over. I think that the answers to the question that Senator Cavanaugh can get so that they can get together on this by the time it is heard next Monday. I would ask then since we are coming down the line, that the legislature might want to take another look at this today since we just keep bouncing along and were finding more controversy would they wish to come forward and hand the Clerk a bill that they think is non-controversial that is theirs and put it on the desk. I would like to make a motion to that effect.

PRESIDENT: Senator Mahoney is now offering a motion which would say to the members here that you could come forward and at least give us some idea as to a list of bills that might not be controversial. Particularly one of your own. I think that we ought to have a five minute recess to do that. Senator Barnett for what purpose do you rise?

SENATOR BARNETT: Well Mr. President, I think while they are getting this I can take up my 622, we have got the amendments now, while they are making there....if that is OK.

PRESIDENT: That is OK, I had agreed to that one earlier. Alright lets pass on 713, while we are looking at Senator Barnett's 622, that he feels is non-controversial why don't the body then, I'm going to just conclude that the body is in agreement that we can take up non-controversial bills here by having you come forward at least and giving us a list of these rather than to have us bounce around on General File and trying to pick out one for you. While we are doing that maybe the a..a..has 622 been read?

CLERK: Read LB622.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: Mr. President and members of the legislature I would ask you to reject the committee amendments and to stand by for the new amendments that Senator Richendifer has. I would ask unanimous consent to reject the committee amendments so that we can get on.
